

With STP, you can **disburse your remittances** automatically and immediately.

Your clients receive them directly into their bank accounts **100% digitally, without leaving home!**

With our solutions, you can track all your transactions from start to finish! And you can validate the information (**name or business name and RFC/CURP**) of the receiving accounts through the Electronic Payment Receipt (**CEP**)

And if you require it, you can perform operations 24/7!

No amount limit!

What are you waiting for? Integrate STP into your disbursement processes, eliminate manual processes, reduce your operational burden, and increase control over your electronic transfers.

Would you like to save time in your processes?
