

With STP you can assign an individual CLABE account to each property or tenant

Charge via electronic transfer

SPE[®] and assign a CLABE account per property.

Forget about unidentified payments!

Thanks to STP's technological integration with your ERP, forget about having unidentified deposits or performing manual reconciliation.

1 property or 1 tenant, 1 UNIQUE CLABE account.

You can make charges and receive payments with Banco de México's tools: CoDi[®] and Dimo[®]

With CoDi[®], send payment requests directly to your clients' banking applications, they will only have to confirm the payment. Or with Dimo[®], give them the ease of paying you to a phone number wherever and whenever.

You can also independently manage each condominium by sub-assigning accounts (Cost Center Model).

Get in touch and discover all the benefits you can integrate into your company!
